Public Notice #03-118-CO-M

Date: September 24, 2003

### **NOTICE OF A DRAFT SYNTHETIC MINOR CONSTRUCTION PERMIT TO LIMIT POTENTIAL TO EMIT**

**MEADWESTVACO SOUTH CAROLINA, LLC (SUMMERVILLE LUMBER MILL)**  
**309 MAPLE STREET**  
**SUMMERVILLE, SOUTH CAROLINA**  
**(DORCHESTER COUNTY / TRIDENT EQC DISTRICT)**  
**AIR PERMIT NO. 0900-0017-CD**

MeadWestvaco has applied to the SC DHEC for a construction permit to modernize equipment at the Summerville Lumber Mill, where harvested timber is purchased and processed into lumber and pulpwood chips. A Draft Synthetic Minor Construction Permit and Engineering Calculation (Green) Sheets have been prepared for this facility by DHEC's BAQ Office in Columbia, South Carolina, outlining this proposed project and applicable regulations under which the draft permit is subject to review. If approved, the draft construction permit will enable this facility to comply with applicable State and Federal Air Quality Regulations when operated in accordance with the conditions contained therein. The pollutant limitations and other permit conditions, as set forth in the draft permit, are tentative and open to comment from the public and the United States Environmental Protection Agency (EPA).

MeadWestvaco is proposing to modernize the Log Cut-Up System and make modifications to the Fuel Processing System, Dry Kilns, Planer Mill Nos. 1 & 2, Pulpwood Chipping System, and other facilities at the Summerville Lumber Mill. If approved, the facility's current production capacity will be affected and emissions of Total Suspended Particulates, Particulate Matter less than 10 Microns in Diameter, and Volatile Organic Compounds (VOC) will increase. The facility has agreed to accept federally enforceable limits of less than 39.98 tons per year of VOC emissions for this permit, which includes stringent monitoring, reporting, and recordkeeping requirements. Air dispersion modeling has demonstrated that operation of the proposed project will not interfere with the attainment or maintenance of any State or Federal Standard. The draft construction permit will limit the facility's potential to emit to below Prevention of Significant Deterioration (PSD) major source thresholds.

DHEC issued a Title V Operating (TV) Permit to this facility on October 1, 2001, after proper public notice and completion of a thirty (30) day comment period. The Department has identified the incorporation of the terms and conditions of Draft Construction Permit No. 0900-0017-CD into the existing TV permit as a minor modification in accordance with SC DHEC Regulation 61-62.70 "Title V Operating Permit Program." Therefore, if approved, and upon receipt of a minor modification request from the facility, the construction permit will be incorporated into the TV permit with no additional public comment period and/or hearing required. All emissions limitations and conditions contained in the draft construction permit have been written to ensure that this facility continues to operate in accordance with the requirements of the Title V Operating Permit Program for the State of South Carolina.

Interested persons may review the draft permit, green sheets, and other materials maintained and used by the DHEC in preparing this permit, and submit written comments (including the permit number and facility name), within thirty (30) days of the date of this notice, to the attention of Mr. Stuart A. Latta at the above DHEC address. All comments received within thirty (30) days of the date of this notice will be considered when making a final decision regarding the draft permit. Where there is a significant amount of public interest, DHEC may hold a public hearing to receive additional written and oral comments. If a public hearing is held, notice will be given in this publication thirty 30 days in advance. Requests for contested case hearings may be filed after a final decision has been made regarding the draft permit. Additional information regarding contested case hearings is available from the Office of General Counsel at the above DHEC address or by calling (803) 898-3350. Requests to be placed on a mailing list for notification of any future public notices or public hearings by the BAQ should be made in writing to the attention of Ms. Donna Moya at the above-listed DHEC address or by e-mail at: moyedd@dhec.sc.gov.

Information relative to the draft permit will be made available for review through October 24, 2003 at the DHEC Columbia Office listed above and at the following location:

SC DHEC, Trident EQC District Office, 1362 McMillan Avenue, Suite 300, Charleston, SC 29405 at (843) 740-1590.

Additional information on permit decisions and hearing procedures is available by contacting DHEC at the above address or telephone number. Copies of a draft permit or other related documents must be requested in writing. There is a \$.25 per page charge to copy these documents.

Please bring the foregoing to the attention of persons you know will be interested in this matter.
